SOFTWARE DEVELOPER/ ENGINEER| PHILOSOPHER

SUMMARY

I am a tech savvy certified, highly skilled and results-driven Software Developer with experience in developing web applications, information technologies and entertainment. Throughout my career in technology, I have designed and developed strong, data-driven web solutions that helped business owners, schools and many other organisations. I’m proficient in languages like Java-script with expertise in frameworks such as React and Node.js, adept at problem-solving, collaborating in agile teams, and delivering high-quality software solution on time.

KEY SKILLS

Advanced Technical Skill	Business Partnering	Ethical Awareness
Problem Solving	Critical Thinking	Development Skills
Project Management	Employee Engagement	Creativity

PROFESSIONAL EXPERIENCE

Academic Website King Primary School | October 2024- December 2024

- Assisted the design and development of a full-stack school platform using **HTML**, **CSS**, **JavaScript**, and **MongoDB**.
- Optimized the website's front end to ensure responsive design across devices using **Bootstrap**.

E- Commerce Website Essence Of Style | December 2024

- Designed and developed a responsive and user-friendly frontend for an eCommerce platform using modern web technologies such as **HTML5**, **TailwindCSS**, **JavaScript**, and frameworks like **React.js**.
- Collaborated with UX/UI designers to implement visually appealing and intuitive designs, ensuring a seamless user experience.
- Optimized website performance by implementing lazy loading, code splitting, and browser caching, resulting in a [specific percentage, if applicable] improvement in loading speed.
- Worked closely with backend developers to ensure efficient integration of frontend features with server-side functionalities.
- Integrated **APIs** for real-time data handling, including product catalogs, search functionality, and user accounts.
