PROFILE SUMMARY

Results-driven Software Engineer with 3+ years of experience designing, building and deploying full-stack web applications for the insurance and e-commerce sectors. Specialises in responsive React and TypeScript interfaces, backed by Node.js and Express.js services and SQL and MongoDB databases. Experienced in deploying and maintaining applications on AWS and Azure with about 99% uptime. Strong in problem solving, agile collaboration and performance optimisation, with a Philosophy background that sharpens analytical thinking and clear communication.

CORE SKILLS

Programming Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3,
Frameworks & Tools:	React.js, Next.js, Redux, TailwindCSS, Node.js, Phython, Angular, Express.js, Git/GitHub, VS Code
Databases:	SQL, MongoDB
Cloud Platforms:	AWS, Azure
APIs:	RESTful API Development, GraphQL, API Integration
Performance:	Lazy Loading, Code Splitting, Browser Caching, Responsive Design
Design & Productivity:	Adobe Photoshop, Illustrator, After Effects, Microsoft Office 365 (Excel, Teams), Google Workspace

PROFESSIONAL EXPERIENCE

Software Engineering Experience — Dec 2024 – Present

Intteck Limited • Software Engineer (Lagos, Nigeria) — Jan 2025 – Present

- Designed, developed and deployed full-stack insurance platforms for Cornerstone Insurance, Sterling Assurance, Universal Assurance, ForteLife Insurance, NSIA and Staco Insurance.
- Built responsive React and TypeScript interfaces that perform consistently across devices and browsers.
- Designed efficient SQL schemas to handle complex insurance data structures.
- Collaborated with designers and stakeholders to turn requirements into scalable, user-friendly applications.
- Deployed and maintained applications on AWS and Azure, ensuring about 99% uptime.
- Optimised website performance and user experience, improving client engagement and retention.

Essence of Style • E-Commerce Developer — Dec 2024

- Designed and developed a responsive frontend for an e-commerce platform using HTML5, TailwindCSS, JavaScript and React.js.
- Improved loading speed through lazy loading, code splitting and browser caching.
- Worked with backend developers to integrate frontend features with server-side functions, and integrated APIs for real-time product catalogues, search and user accounts.

King Primary School • Academic Project: School Website — Oct 2024 – Dec 2024

- Built a full-stack school website platform with HTML, CSS, JavaScript and MongoDB, using Bootstrap for responsive design across device sizes.
- Created database schemas for student information, course management and administrative records.

EDUCATION

B.A. Philosophy
Adekunle Ajasin University
Ondo State, Nigeria • Conferred: Sep 2024

National Youth Service Corps (NYSC)
Lagos, Nigeria • Completed: May 2026

CERTIFICATIONS

- Software Developer Bootcamp, GOMYCODE (Certificate of Completion, Jan 2025)
- AWS Certified Solutions Architect – Associate (in progress)

KEY PROJECTS

Insurance Platforms (Intteck Limited) Full-Stack Development
Built and deployed web platforms for more than six insurance companiecovering responsive interfaces, SQL data design and cloud deployment on AWS and Azure.

E-Commerce Platform (Essence of Style) Frontend Performance
Delivered a responsive React storefront with lazy loading, code splitting and caching, plus an API-driven catalogue, search and user accounts.

Deela E-Commerce App
Buit a full-stack E-commerce application with an admin pane and secure authentication, depoyed on Render.

School Website (King Primary School) Full-Stack Application
Developed a responsive full-stack site with MongoDB schemas for student, course and administrative records.

PROFESSIONAL ATTRIBUTES

Full-Stack Web Development • Responsive & User-Centric Design • Problem Solving & Critical Thinking • Agile Development Methodologies • Project Management • Team Collaboration • API Development & Integration • Database Design & Optimization • Performance Optimization • E-Commerce Development • Client Engagement & Communication
